Accredited Training Institute (ATI) Agreement
Updated - Effective October 1, 2018

To improve consistency within the training department arm of the Scaffold & Access Industry Association, Inc. (SAIA), we have revised and updated our Accredited Training Institute (ATI) Terms of Reference. These new terms will go into effect on October 1, 2018. This content will also replace existing content for new ATI applicants as they are submitted for review. The granting and/or renewal of ATI accreditation is conditioned upon the ATI’s agreement to the terms below.

1. ACCREDITED TRAINING INSTITUTE (ATI):
Approval of an ATI is based on the resume of the Instructor. If the Instructor were to leave the employ of an ATI at any time, the ATI must notify SAIA in writing within thirty (30) days that the instructor is no longer employed by the ATI. The ATI will then need to submit a new instructor resume to be reviewed by the ATI Review Committee. If after six months no new Instructor has been approved, the ATI would be placed on an inactive status and could potentially lose its accreditation status and may need to reapply as a new ATI in the future. All ATI’s must maintain current membership and certification within the SAIA.

2. ACCREDITED TRAINING INSTITUTE (ATI) PROGRAM BENEFITS:
An ATI will receive several benefits for taking part in the SAIA University training program. The ATI will be listed on SAIA’s website as a provider of SAIA training programs with the ATI’s contact information for potential students. The ATI will be listed in SAIA’s directory each year as an ATI as well as listed on all printed ATI materials. The ATI authorizes SAIA to publish its name and other information in these and similar publications. SAIA will provide the ATI Instructor with 24/7 access to an ATI Portal containing all necessary training documents.

3. QUALITY ASSURANCE PLAN:
Upon acceptance of the ATI application, and payment in full of the accreditation fee, each Instructor will be sent an ATI Agreement for signature and a Policy & Procedure Manual to use as a guideline for instruction. These documents are available for inspection during the application process. Failure to comply with these documents could result in an audit of the ATI activities and possible revocation of the ATI’s status. All instructors must complete and maintain a current instructor designation for each course that they have been approved to instruct. All courses shall be taught in person in an instructor-led format. Practical sessions where there is a requirement to display competence through erection of components must be done either at a central training site where appropriate equipment is available, or on the job where qualified personnel can supervise the activity and verify competence.

It is further understood that most courses have a post test that requires a trainee to display competence. Record of performance on post tests must be maintained by the ATI. Also, at appropriate intervals, comprehensive theoretical and practical tests will be administered, the marks of which will be compiled to arrive at a final rating for each trainee.

At no time will the ATI or its instructors manipulate any of the SAIA training materials. This includes any manuals, exams, PowerPoint presentations, facilitators guide, or any other materials produced by SAIA. All manuals must be purchased through SAIA or an approved vendor. For more details on approved vendors in your area, contact headquarters.

All completed post tests must be immediately sent to SAIA Headquarters to be processed, graded and completion documentation issued. All post tests sent to SAIA Headquarters must include the following documents:

- SAIA Payment Form/Coversheet (one per class)
- Student Form (one per student)
- Scantron Test Answer Sheet (one per student – excludes Supported Hazard Awareness)

If documentation is not provided or incorrectly completed, course documents shall be returned for correction, causing delays in processing, and additional fees may be incurred. Class packets received at SAIA Headquarters that are over 30 days old from the original class date, will be penalized with a Late Payment Fee. See Section 12 Fees for details.
4. SCAFFOLD & ACCESS INDUSTRY ASSOCIATION (SAIA) COURSES:
The following courses are offered by SAIA. Ability to teach these courses is based on approval received at time of ATI application. All courses include a 3-year certification unless noted below.

5. COMPETING PROGRAM CLAUSE:
No advertising for competing programs shall reference or utilize any SAIA or SAIA University logo.

6. DOCUMENTS OF COMPLETION:
SAIA will identify the minimum standards for certification. Upon successful completion, a pocket identification card and a certificate with a certificate number will be issued by SAIA. Documentation with certificate numbers is available for the courses referenced under Section 4. As new curriculum is developed and made available to ATIs, they will be included in the list of courses offering documentation of completion. Each ATI is responsible for distributing documentation to their students and will not hold any cards unless approved by SAIA to do so.

7. DATABASE:
SAIA will maintain a student database. Prior registration by each applicant with SAIA may be necessary.

8. INSTRUCTOR REQUIREMENTS:
Applicant must be an employee of the ATI. Applicant must have personal training, work history, current SAIA certification and experience in the subject matter to teach the courses for which they applied. Applicant shall submit an experience resume along with this application for approval by SAIA. Instructors must have registered and successfully completed all SAIA courses to be taught. All approved instructors must complete the Train the Trainer Facilitator Skills Workshop offered through the SAIA before final approval to teach the SAIA program. Instructors must maintain current credentials in all courses taught.

9. AUDIT PROCEDURES:
The ATI and the ATI Instructors shall be subject to an audit to ensure compliance with the SAIA’s Quality Assurance Plan described in Section 3 herein. Any complaints, noncompliance with Section 3, or a change in the original accreditation information could necessitate an audit. Continued accreditation shall depend on compliance with the Quality Assurance Plan. If at any time it is deemed necessary for an audit the ATI Status will be suspended until the audit has taken place, been reviewed and reinstated once cleared by the ATI Review Committee. The ATI Review Committee may also determine that certain conditions must be satisfied by the ATI and the ATI Instructors before the ATI status will be reinstated. Should an audit be required, the fee will be $500.00 USD, plus expenses. The audit shall not commence until SAIA has received the audit fee and the estimated expenses from the ATI.

11. COMPLAINTS AND APPEALS:
If at any time SAIA receives a formally written complaint about an ATI or an ATI Instructor, it could result in suspension of the ATI status until an audit is conducted and evaluated by the ATI Review Committee. When a complaint is received by the SAIA it will be reviewed by the ATI Review Committee. Both the ATI and ATI Instructor will be notified of the complaint and the nature
of the complaint. All complaints must be submitted in writing and, except as provided herein, are kept confidential. Within the thirty (30) days after the Notice of the Complaint is sent to the ATI and the ATI Instructor, the ATI and its instructor may respond in writing to the complaint with the ATI Review Committee. The ATI Review Committee shall make a determination as to the complaint and recommend to the SAIA Board of Directors any action necessary concerning the ATI and ATI Instructor (the "Review Decision") which may include, but not limited to, taking no action, suspending the ATI and/or the ATI Instructor, or terminating the accreditation of the ATI and/or the ATI Instructor. The ATI Review Committee shall notify the ATI and the ATI Instructor in writing of its recommendation. The ATI and/or the ATI Instructor may appeal any Review Decision by the ATI Review Committee by submitting an appeal in writing to the SAIA Board of Directors within ten (10) days following the notification of the Review Decision. The SAIA Board of Directors shall then consider the Review Decision and any timely received appeal by the ATI and/or the ATI Instructor. The SAIA Board of Directors may take any action it deems necessary with respect to the Review Decision and/or any appeal.
