NEW WHITE PAPER RECOMMENDS REDESIGN OF SAFETY TRIANGLE

While safety in the workplace has experienced tremendous gains, worker fatalities are at an eight-year high.

A new white paper from the [Campbell Institute](#) recommends an update to the classic safety triangle that would shift the focus from "fixing the worker" to eliminating human error. Read the full article [here](#).

Download the [white paper](#).

UPCOMING OSHA WEBINAR FOCUSES ON SAFETY PROGRAMS

The Occupational Health & Safety Academy is hosting a [webinar](#) on building a successful contractor safety program.

century.

It's no secret that the industry lags when it comes to adopting the latest technologies that could help increase productivity on job sites and drive project completion.

The use of AI in construction – where details are key and even the smallest mistakes can lead to loss of time, money, and life – can eliminate most common errors and reduce the potential for risk.

When incorporated into projects, AI can boost productivity and cut construction times in half all while improving site safety and outdated processes.

WORKPLACE SAFETY: STILL ROOM FOR IMPROVEMENT

The National Safety Council (NSC) has added a new section for workplace statistics to its [online database](#), which provides injury facts, worker details, and timelines used to determine why and how injuries and fatalities occur.

The construction industry, unfortunately, continues to lead the category for most workers fatalities, proving that there is still room for improvement when it comes to safety in the workplace.

Read the full article [here](#).

If you really want the key to success, start by doing the opposite of what everyone else is doing.

- Brad Szollose

In this free webinar, scheduled for November 8, you'll learn what type of data to incorporate into your program, how to identify opportunities for improvement, and best practices for getting your program off the ground.

MEMBERSHIP NEWS

There's still time to renew your membership. Call Brandi now at 816.595.4833!

If you haven't yet verified your information in the Member Portal, please take a few minutes to go in and do it.

We want your information in the next Membership Directory to be accurate, but we can't do that without your help. Access your account today and make those changes (if applicable).

Click on the calendar above for a direct link to the most current SAIA events. New events added this week include:

[CPT FOR SUSPENDED SCAFFOLD](#)

November 16, 2018 | Durham, NC

[CPT FOR SUSPENDED SCAFFOLD](#)

(at IWCA Annual Convention)

February 10, 2019 | San Diego, CA

Let us know how we're doing: what's working, what's not. Have a suggestion or idea? Tell us about it. What information do you want to see in this e-newsletter? All feedback, good or bad, is welcomed and appreciated. Contact Denice Posey, Marketing Manager, at denice@saiaonline.org.
