SAIA ANNOUNCES RELEASE OF CPT SUPPORTED CONTENT UPDATE

KANSAS CITY, MO | January 14, 2019 – The Scaffold & Access Industry Association (SAIA) announced today that updates to the Competent Person Training (CPT) program for frame and system scaffold have been released and are ready for use by ATI instructors.

The new course materials, which were developed to be more tactile and user-friendly for students than previous versions, include an increased number of visuals (i.e., images, illustrations, tables, charts, etc.) within the study guide, hands-on learning activities, and built-in classroom interactions.

ATI instructors can begin using the new materials while the old versions will be phased out over the next six months. Updates to the CPT tube and coupler program will soon follow. For more information or questions, please contact Jackie Brown, Outreach Training Manager, at 816.595.4843 or jackie@saiaonline.org.

The SAIA wishes to acknowledge all those involved with the content update, including the SAIA Education Committee, Content Review Committee, and Regulatory and Review Committee. Their hard work and tireless effort have contributed to a quality product that will positively impact the scaffold and access industry and further the mission of the SAIA to provide world-class training and education.

This update was funded by the SAIA Education Foundation (SAIAEF) and made possible by their generous benefactors. To make a donation and give back to your industry, please contact the SAIAEF at 916.391.8929 or info@saiaef.org.

About the SAIA
The Scaffold & Access Industry Association (SAIA) is a non-profit trade 501(c)(6) association committed to raising the standards of professionalism within the scaffold and access industry. The SAIA represents all facets of the scaffold and access industry through various councils that include, aerial work platform, construction hoist, fall protection equipment, international, industrial, mast climbing, plank and platform, shoring, supported scaffold and suspended scaffold. Through its various programs, the SAIA promotes safety, training and a highly professional, responsible image of the scaffold and access professional. The SAIA delivers thousands of safety training programs a year at various locations throughout the world. These programs cover all aspects of scaffold and access safety and equipment use. The SAIA is also the secretariat for the American National Standard, SAIA ASC A92 and A111 standards. For more information, call 816 595.4860 or visit us at www.saiaonline.org.
